

IN THE CLAIMS:

Please amend Claim 21 as provided in the following
Listing of Claims:

Listing of Claims:

Claims 1-20. (Canceled)

Claim 21. (Currently Amended) An apparatus,
comprising:

a shipment conveyance device, wherein the shipment conveyance device is associated with a shipment, and further wherein the shipment conveyance device is at least one of a shipping container, a pallet, and a tote;

a global positioning device, wherein the global positioning device is located in, on, or at, the shipment conveyance device, and further wherein the global positioning device determines a position or location of the shipment conveyance device;

a processing device, wherein the processing

device processes at least one of information regarding the shipment and information regarding the shipment conveyance device in response to an occurrence of an event or in response to a request for information regarding the shipment or the shipment conveyance device, wherein the processing device generates a message containing information regarding a ~~the~~ position or location of the shipment or the shipment conveyance device and information regarding at least one of the occurrence of an event, a status of the shipment, a shipment temperature, and an impact or force on the shipment conveyance device; and

a transmitter, wherein the transmitter transmits the message to a communication device associated with at least one of a sender of the shipment, a receiver of the shipment, and a carrier of the shipment.

Claim 22. (Previously Presented) The apparatus of Claim 21, further comprising:

a display device, wherein the display device displays or provides information regarding the shipment.

Claim 23. (Previously Presented) The apparatus of Claim 22, wherein the display device is at least one of a display screen, a liquid crystal display screen, and a light emitting diode screen.

Claim 24. (Previously Presented) The apparatus of Claim 21, further comprising:

a receiver, wherein the receiver receives the request for information regarding the shipment or the shipment conveyance device.

Claim 25. (Previously Presented) The apparatus of Claim 21, wherein the apparatus stores information regarding at least one of a handling instruction regarding the shipment, information regarding a temperature requirement regarding the shipment, information regarding digitized map information, information regarding a stop or stops made during the transport of the shipment, and travel route information regarding the shipment.

Claim 26. (Canceled)

Claim 27. (Previously Presented) The apparatus of Claim 21, wherein the message contains information regarding a stop made by a carrier of the shipment or the shipment conveyance device.

Claim 28. (Previously Presented) The apparatus of Claim 21, further comprising:

a sensor, wherein the sensor monitors or measures at least one of a temperature during the shipment, a shock exerted on the shipment conveyance device, an impact exerted on the shipment conveyance device, and a force exerted on the shipment conveyance device,

wherein the message contains information regarding at least one of a temperature of the shipment, a change in a shipment temperature, and an impact or force exerted on the shipment conveyance device.

Claim 29. (Previously Presented) The apparatus of Claim 21, wherein the message contains information regarding an unusual stopping period regarding the shipment.

Claim 30. (Previously Presented) The apparatus of Claim 21, wherein the processing device is programmed to automatically generate the message.

Claim 31. (Previously Presented) The apparatus of Claim 21, wherein the processing device generates a shipment delivery message, and further wherein the apparatus transmits the shipment delivery message to the communication device.

Claim 32. (Previously Presented) The apparatus of Claim 21, wherein the event is a detection of a deviation from a pre-determined transportation route associated with the shipment.

Claim 33. (Previously Presented) The apparatus of Claim 21, wherein the event is a detection of an unauthorized carrier or a wrong carrier transporting the shipment or a detection of an unauthorized receiver of the shipment or a wrong receiver of the shipment.

Claim 34. (Previously Presented) The apparatus of Claim 21, wherein the event is a detection of a shipment temperature which deviates from a shipment temperature requirement.

Claim 35. (Previously Presented) The apparatus of Claim 21, wherein the event is a detection of at least one of an impact experienced by the shipment conveyance device, a force experienced by the shipment conveyance device, a mishandling of the shipment conveyance device, a dropping of the shipment conveyance device, and an accident involving the shipment conveyance device.

Claim 36. (Previously Presented) The apparatus of Claim 21, further comprising:

an input device, wherein the input device is used to enter information regarding a person or entity attempting to receive the shipment,

wherein the processing device processes the information regarding a person or entity attempting to receive the shipment and determines whether or not the person or entity is a proper receiver of the shipment.

Claim 37. (Previously Presented) The apparatus of Claim 21, wherein the processing device detects an occurrence giving rise to an insurance claim regarding the shipment, and

further wherein the message includes insurance claim information.

Claim 38. (Previously Presented) The apparatus of Claim 21, wherein the message is transmitted on or over at least one of the Internet and the World Wide Web.

Claim 39. (Previously Presented) The apparatus of Claim 21, wherein the shipping container is at least one of a refrigerated container, a heated container, and an insulated container.

Claim 40. (Previously Presented) The apparatus of Claim 21, wherein the communication device is at least one of a wireless device and a personal digital assistant.
